From Mrs Ronnfeldt’s Desk

We had a great visit from Ms Pippa Bagshaw and Mr Phil Spark from the Catchment Management Authority who showed us some of the amazing variety of frogs, toads, lizards and snakes! that can be found here. Mr Spark is very knowledgeable and has written a book titled ‘Frogs, Reptiles and Mammals of the North Western Floodplain of NSW’, a really informative identification guide to our local wildlife. Four copies were kindly donated to our school. They also donated 20 koala trees for our ‘Wild About Croppa’ project. A huge thank you must go to Mrs Fordham who has organized so much of our project. Next time you are in the school, ask to have a look at our portable bird hides – they’re amazing!

Just a reminder also that if you are in the school for canteen, reading groups or another extended period of time, could you please sign in at the office – this is a Workplace Health and Safety requirement on all school premises.

Today we send our deepest sympathies to Mrs Reardon and her family at the passing of her beautiful mum.

Warm regards
Tracy Ronnfeldt

Assembly will be held Friday this week.

Some healthy Crunch and Sip ideas:

- Sugar snap peas and tomatoes
- Frozen peas, tomatoes, mushrooms
- Melon balls
- Corn, carrot and celery
- CROPPA CREEK P.S. CALENDAR
(See the website for more details)

3 Way Student Reporting Interviews from 3:30pm

Our next P&C meeting will be held on Monday 16th June at 7pm in the school library.

If anyone is able to donate any grain for the chooks or chicken wire to go around our fruit trees, we would appreciate it very much.
Some of the amazing wildlife in our area!

Mr Sparks knows lots about animals in our area and had a pet carpet python about 5 years old and Riley called out 'I'm five!'

Healthy Tips:
EAT BREAKFAST

If there's one thing you can do for your family's good health, it's to have breakfast every morning.

New Australian research has shown that people who skip breakfast have larger waist circumferences than those who eat breakfast. They also have higher cholesterol levels and higher insulin levels when they wake up. Each of these are risk factors for heart disease and diabetes. So, give your body a helping hand and fuel up with a nutritious breakfast.
