From Mrs Ronnfeldt’s Desk

Another term draws to a close and what a busy term it has been! Thank you to all our parent helpers who have come in to support and celebrate student learning. We are having a tree planting working bee in the holidays – you are very welcome to join in if you have any spare time.

Thank you to those parents who gave feedback on our Antibullying Policy and Student Welfare Policy and Procedures. Your thoughts were appreciated.

Surveys on school life have gone out to students, staff and parents. They are voluntary but the more ideas we gather, the better will be our planning for 2015. If you could return them first week back, we will form our planning committee and begin work.

Hope everyone has a relaxing and fun holiday.

Yours ‘soon to be in the restful atmosphere of a coffee shop’ 😊

Tracy Ronnfeldt

Weekly Assembly

Congratulations to the award recipients from our Week 10 assembly:

Students of the Week: Maverick, Mikalea, Eric and Charlie (our amazing relay team!)

Tree planting Working Bee on the last Friday of the holidays at 9:30am All welcome!
Thank you NUFARM!

Huge thank you to NUFARM AUSTRALIA LTD for an amazing donation to our school of $4785! Adam called in yesterday with the cheque.

Teddy Bear’s Hospital came to school on Monday. The younger students worked through activities to make them feel more comfortable if they need to go to hospital. The older students learned emergency care and what you should do in case of snake bite, heart attack or stroke, and how to manage bleeding. The workshops were excellent – thank you to Dr Jenny, Dr Max, Dr Brayden and Dr Nic from The University of Newcastle’s Dept of Rural Health.
